

ROOM B

Modern Ideas.

OUR STORY

Room B is a Canadian furniture design and manufacturing company. We're dedicated to building lasting relationships between people and their spaces through thoughtfully designed products. Since 2010 we've created meaningful and enduring products through dedicated service, empathic design, and quality manufacturing. In addition to our Canadian-made items, we've formed great partnerships with like-minded European design companies to provide a vast collection of complementary products for every situation.

Our team is comprised of creative thinkers and resourceful problem solvers. We're fueled by challenges and we're driven to provide divergent solutions. We embrace and encourage progression within our industry by being responsive to new principles, technologies, and processes. At Room B we take pride in our ingenuity and our determination to deliver products of the highest quality.

Through human-centred design principles we address ergonomic, comfort, and functionality factors. We prioritize the details and create aesthetically pleasing, and adaptable products. We implement our design criteria with quality materials, precision manufacturing, and great care. The outcome is a highly refined and durable product with lasting appeal. The culmination of these elements in Room B products provides an enhanced user experience, and creates a sense of ease and satisfaction.

L-R: Relax Chair, Disc Table, Round Ottoman, Latitude Sectional, Capital Side Table, Tercero Coffee Table, Belle NA Armchair.

TRUE CRAFTSMANSHIP

Craftsmanship is embedded in every aspect of Room B. From customer service and product design, through to manufacturing and order fulfillment, each of our products represents our true and tangible commitment to excellence and refined design.

EVERY DETAIL COUNTS

We create thoughtfully engineered and beautifully crafted products that act as a cornerstone item for any environment. Our dedication to quality is evident through our attentiveness and examination of every last detail.
